

## Three-day Evacuation Kit-to Include Portable Shelter

When preparing for a possible emergency evacuation situation, it's best to think first about the basics of survival: fresh water, food, clean air and warmth. It is recommended that individuals have a 3-day kit at work, and in their car. A much more significant emergency supply kit should be in the home.

Recommended Items to Include in a Portable Basic Emergency Supply Kit Follow. You should have one kit for each family member, and appropriate supplies in each vehicle in case the incidents happens while you are on the road or at work
